Forecast for Friday 12 Nov 2021

Weather: Showery outbreaks of rain through the early hours. Persistent, occasionally heavy rain spreads east from around dawn. Rain turns light and patchy by early afternoon. Low cloud and some patchy drizzle through the evening.

Chance of cloud free mountain/hill tops above 800m: 10-20%.

Visibility: Poor through the morning in heavy rain and low cloud. Cloud bases extensive above 500-600m in the west around Ben Alder and Creag Meagaidh, 700-800m further east. A chance of some brief cloud breaks across eastern hills early afternoon, but extensive cloud down to 600-700m for all ranges in the evening.

Met Office Aberdeen Meteorologist's View
Fresh winds in the morning combined with heavy rain will give a significant wind chill.

Forecast for Saturday 13 Nov 2021
Weather: Low cloud thins through the early hours. Then a dry day with sunny spells improving through the morning. Some patchy cloud may persist on the lower slopes, but with munro tops clear of the cloud in the afternoon. Thicker cloud spreads east at the start of the night.

Maximum wind: Northwest 15-20 mph early morning, easing to 5-10 mph by midday. South then Southeast 10 mph in the afternoon.

Chance of cloud free mountain/hill tops above 800m: 70-80%.

Visibility: Generally very good through daylight hours. Patchy cloud with bases around 700m, but tops above 1000m likely to be above the cloud in the afternoon.

Temperature: **Glens:** Plus 5 Celsius rising to 9 Celsius
At 800m: Plus 4 Celsius
Freezing level: Above the summits.
